

MAR 2 1987

HW-113

Bill Wright, Project Manager
Hazardous Waste Cleanup Program
Washington Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504

Dear Mr. Wright:

This is to acknowledge receipt of the draft Greenacres Landfill Work Plan on February 2, 1987. This action fulfills a special condition in the Multi-Site Cooperative Agreement which includes the Greenacres Landfill site.

During telephone conversations, specific comments were passed along to you for consideration. Briefly, the comments were:

- a. A more expanded sampling and analysis plan.
- b. A close look at what data would be generated from the soil gas audit.
- c. The scope of the private well investigation.
- d. Priority pollutant sampling on all monitoring wells.
- e. The rationale for all of the geophysical work.
- f. The need for on-fill boreholes
- g. Monitoring well construction

I understand that Ecology had similar comments to discuss with your contractor. If you have any questions about our comments please telephone.

Sincerely,

Neil E. Thompson
Project Manager
